ANUSHA PAVANRAJ

SENIOR FRONTEND DEVELOPER | ANGULAR • REACT • VUE.JS

Mangalore, India | Ph: 9008158294 | anushapavanraj@gmail.com | linkedin.com/in/anusha-rao-979713124 | github.com/Anusharao0717

PROFESSIONAL SUMMARY

Frontend Developer with 6+ years of experience building responsive, scalable and maintainable web applications using Angular, TypeScript, JavaScript, HTML and CSS/SCSS, with hands-on experience in React and Vue.js. Experienced in multiple client and product applications involving complex business workflows, reusable UI components, REST API integration, interactive dashboards, canvas-based interfaces, real-time/chat experiences, offline data handling, notifications, drag-and-drop interactions and AI-enabled features. Strong in requirements analysis, UI implementation, debugging, testing, performance improvements and frontend technical coordination.

CORE TECHNICAL SKILLS

Frontend	Angular, TypeScript, JavaScript, React, Vue.js, Next.js, HTML5, CSS3, SCSS, jQuery
UI & Libraries	Angular Material, Material UI / MUI Joy, Bootstrap, RxJS, Formik, Yup, Vuelidate
Application Development	REST API Integration, Responsive Design, Reusable Components, Forms, Routing, Notifications, Drag & Drop, Dashboards
Advanced Frontend	Canvas-based UI, Offline/Sync workflows, Real-time Chat, AI-enabled UI, Performance Optimization, Cross-browser Compatibility, Unit Testing
Tools	Git, Azure DevOps, Visual Studio, Figma

PROFESSIONAL EXPERIENCE

Bix Bytes Solutions Pvt Ltd, Mangaluru — Software Engineer

October 2019 – Present

- Develop and maintain responsive web applications using Angular, TypeScript, JavaScript, HTML and CSS/SCSS with focus on scalability, performance and maintainability.
- Work across Angular, React and Vue.js applications based on project requirements and technology stacks.
- Translate UI/UX designs and business requirements into responsive, accessible and reusable frontend components.
- Integrate frontend applications with REST APIs and collaborate with backend, QA and cross-functional teams to deliver end-to-end features.
- Lead frontend development activities across multiple projects including task planning, effort estimation, technical coordination and delivery.
- Develop complex business interfaces including dashboards, forms, planners, timelines, notifications, drag-and-drop workflows and interactive UI components.
- Implement AI-enabled frontend features and chat-based user experiences, including conversational interfaces and API-integrated messaging workflows.
- Work with canvas-based application interfaces, interactive boards, complex user interactions and API-driven data.
- Contribute to offline-capable application workflows and synchronization features using PouchDB-based data handling.
- Work with media and blob-based frontend workflows, including image/video handling and application data processing.
- Perform unit testing, frontend testing, debugging and issue resolution; identify and resolve UI, functional, responsive, cross-browser and performance issues.
- Support application maintenance, enhancements, releases and production issue resolution across multiple client applications.

PROJECT & FEATURE EXPERIENCE

- Developed reusable Angular components and complex business workflows across multiple client applications.
- Implemented planner, worksheet, timeline and reference-selection workflows with API-driven data and popup interactions.
- Built notification systems with real-time updates, unread counts, read/unread state handling and user interactions.
- Implemented interactive canvas-based interfaces with draggable objects, stickers, shapes and dynamic application data.
- Developed AI-enabled chat and messaging interfaces with conversational workflows and frontend API integration.
- Worked on offline application functionality and data synchronization using PouchDB.
- Implemented responsive dashboards, forms, tables, filters, status management and role-based UI behavior.
- Worked on drag-and-drop functionality for tables, boards and workflow interfaces.
- Implemented calendar and scheduling interfaces and integrated third-party UI components where required.
- Independently handled frontend features from requirement analysis through implementation, testing, debugging and delivery.
- Collaborated with backend developers, QA teams and other stakeholders to resolve issues and deliver features within deadlines.

EDUCATION

MCA — St Aloysius Institute of Management & Information Technology (AIMIT), Mangaluru | 2016–2019

BCA — Canara First Grade College, Mangaluru | 2013–2016
